2022 - 2026

Gandaki University

Bachelor in Information and Technology

2020 -2021

High School

Graduated with science background

WORK EXPERIENCE (PROJECTS)

- **Restaurant Management System – Web App**
  - Built using React, Node.js, MongoDB for table booking, billing, and inventory management. Collaborated with a team of 3 to complete the project efficiently
- **Student Record Management System**
  - Developed a database-driven system to manage student profiles, grades, and attendance. Implemented CRUD operations and search functionality using SQL/MongoDB
- **Movie Catalog Application**
  - Created an application to browse, search, and categorize movies. Used React for frontend and Node.js/Express for backend with a MongoDB database
- **Note-Taking Application**
  - Developed an interactive app for creating, editing, and organizing notes. Implemented user-friendly UI and data storage using MongoDB
- **IT Support Volunteer**
  - Assisted with hardware/software troubleshooting/ software installation and system maintenance
